Uncle Sam Says

United States Savings Bonds have made last minute Christmas shopping worries a thing of the past for wise Americans. In fact even though you thought about what to give members of your family or close friends for a month of Sundays you could not come up with a better idea than Savings Bonds. Think of Savings Bonds in terms of what they will do for the recipient. For example, bonds provide immediate funds in the event of an emergency and help to pay for education, travel, a new home or a dozen and one other things which members of your family dream about. Your gift of a bond makes you a partner in the realization of the fondest hope of someone you love. What more could you ask of a Christmas gift?

Synthetic Process Creates Star Gems

Rubies and Sapphires Made by Man Excel in Beauty.

NEW YORK. — Synthetic star rubies and star sapphires, something new in man-made gems, have been developed, it was announced by the American Museum of Natural History and Linde Air Products company, makers of the gems. The star gems are among the most coveted because there is a pale spot of nearly white light in the center, surrounded by streamers shaped like a star.

One of the star rubies is more than 100 carats. It is bigger than any known natural star ruby.

These synthetic stones are in some cases more beautiful than the natural gems, said Dr. F. H. Pugh, the museum's gem expert who conducted the exhibit.

This does not mean, he explained, that the synthetic surpass all natural stones. They do not. However, he declared wearers will be unable to distinguish between these and the real thing.

Jewelers, however, will have no difficulty in distinguishing between the real and the synthetic, said Pugh, because on the backs of the man-made stones they can see marks, somewhat like rings, that show the growth stages of the synthetics.

Both of the star gems are made of a very fine, white powder, aluminum oxide. This powder is colored blue for sapphires, with either cobalt, ditanium or iron. The powder is colored red for rubies with chromium. The gem is made by depositing this powder in a small stream in a very hot flame of oxygen and hydrogen.

Best Mouth Wash Is Just Plain Water, Say Dentists

Pure water is the best mouth wash, the Council on Dental Therapeutics of the American Dental association reports.

"Pure water will fulfill the most important requirements as a mouth wash," the Council declares. "It is superior to flavored or medicated mixtures in many respects. The patient is already accustomed to the flavor of water and therefore it is not necessary to convince him that it tastes good; it is cheap, stable and readily available; and it is nonirritating and otherwise harmless, even if swallowed. Nobody is allergic to pure water, but flavored or medicated mixtures may produce allergic reactions in sensitive persons."

Next best to plain water as a mouth wash is a saline solution prepared by dissolving two teaspoonfuls of table salt in one quart of distilled water. Medicated mouth washes should be used only when prescribed by the dentist or physician, the council recommends.

"The fact that many persons rely on medicated mouth washes when they should visit a dentist or physician must result in numerous instances in serious delay in obtaining necessary treatment," the report warns.

Stock of Food Is at High In German-American Zone

BERLIN — Accelerated bread grain shipments from the United States have brought food stocks in the combined British - American zones of Germany to an occupation high and permitted issuance of the full bread ration to the civilian population, the American military government reported.

In the first three weeks of September approximately 366,000 tons of American bread grains arrived in Germany valued at 40.5 million dollars. In addition, the U. S. and British military governments imported other foodstuffs valued at $400,000 to feed the Germans. The cost of these imports is borne equally by American and British taxpayers.

Marriage License Clerk Joins June Bridal Throng

NEW YORK. — For nearly a year Miss Tillie Zenurko has toiled in the Bronx municipal building, typing marriage license applications—nearly 9,000 of them.

When Clerk Dan Vona opened his wicket for the rush of early June brides, there, smiling at him, was Tillie, determined to be first.

She said she met her husband-to-be about the time she began typing applications.

RESOLUTIONS

Liberty Baptist Church loses two of her oldest members in month of October.

Leonard E. Smith, oldest deacon both in years and point of service, born 1864 - died October 8th,1947. Most of his life was spent as a merchant in Appomattox where he had a host of friends. He was a deacon of his church for forty years and rarely ever missed a service, being regular in attendance at Sunday School, Prayer Meeting and stated church services.

He was sick only a few weeks and was in his place at church up to the fourth Sunday before his home going. His home was always open for his pastors and visiting ministers, where his genuine hospitality was freely extended by Him and his wife. The affection in which he was held was proven by the large attendance at the funeral and by the fact that two of his former pastors came to lend comfort and sympathy. The pastor, Rev. J. Marshall Walker was assisted by Rev. W. M. Thompson from Lynchburg and C. W. McElroy who drove from Purcellville to extend his help and sympathy. Burial was in Liberty cemetery.

A. R. Harwood, J. W. Cawthon, C. S. Jenkins, Committee.

James W. Caldwell- Born April 23, 1867.. Died October 13, 1947. Brother Caldwell Joined Liberty Church when he was a mere boy and was faithful in attendance as long as his health permitted. For past several years his health had been impaired so that he could not attend but he never lost interest in his church. His wife, Margaret Sue Smith, preceded him to the grave many years ago but they raised [illegible] sons and four daughters who [illegible] living useful lives in their respective places and most of them are married and living in their native county. A good man and a fond father and kind neighbor has gone to his reward. He too was laid to rest in Old Liberty cemetery.

—A. R. Harwood, R. L. Bondurant, T. W. Odor Committee.

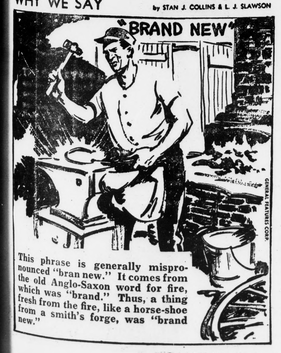
WHY WE SAY by STAN J. COLLINS & L. J. SLAWSON



This phrase is generally mispronounced "bran new." It comes from the old Anglo-Saxon word for fire, which was "brand." Thus, a thing fresh from the fire, like a horse-shoe from a smith's forge, was "brand new."
